## What else can we do? Glad you asked....

### Here are a couple of ideas...

Every organization is just not equipped to assist their staff, workers with personal, spiritual matters. Our Christian workers and staff may be just what you need to support those suffering from Trauma, PTSD. We have a “tried and true” program to assist your staff. We would love to speak to you about our 8-week program.

We can create materials to support your goals and vision to assist your people in spiritual matters. Produce encouraging and uplifting messages for your family, staff, and members.

Travel onsite to teach Christian Principles to your staff, members in conjunction with other Conferences, Seminars or just a desire to grow your people.

Product development for Singles Ministry, group or personal devotions, Women Ministry and Sermon development for Preaching/Teaching.

## One reason we exist:

Our frontline workers provide services that are critical to our daily lives and lives of our families. They give so much and now need us to help them. Our mission is to take these services to workers in the USA and around the world, (VIRTUAL FORMAT) to nations and countries that need our help. We would love to discuss these opportunities with you.

### These are troubling times:

Workplace violence escalating

Increased violence seen in the ranks of our military members toward each other/families and within their units.

Declining attendance in churches around the country (post - covid)
